School of Earth and Environment

STUDENT CODE OF CONDUCT AND CONTACT DETAILS

The School of Earth and Environment is obliged to provide staff and students with a safe work and study environment. In addition, students are required to take reasonable care of their own health and safety as well as the health and safety of all people they interact with. To ensure these requirements are met it is imperative that acceptable standards of student behaviour and dress are maintained. To assist with this students are obliged to adhere to the following Code of Conduct. Penalties, including the exclusion from a unit(s), may be imposed on individuals who ignore this Code or staff directives.

The Code is presented to students as a means to establish ground rules of behaviour for their own safety and protection.

CODE OF CONDUCT DECLARATION

I.................................................................................................................. Student No.............................

have read and understand my obligations defined under this Code of Conduct (over).

I further understand that penalties may be imposed upon me should I ignore this Code of Conduct, including exclusion from my unit(s).

Signed..........................................................

Dated this........................Day......................of..................................200............

Witnessed by .............................................. Date.............................................

Acceptance of this Code is obligatory for all students attending SEE classes and field excursions. Students should be aware that they may be fined, face direct expulsion from field excursions, and/or face exclusion from units for contravening this Code.

CODE OF CONDUCT

(STUDENTS TO KEEP THIS PAGE)

Students shall not harass or interfere with the rights of other students, staff or members of the public.

1. Students must follow any reasonable directive of a staff member in the laboratory or the field.
2. Covered footwear must be worn both in the laboratory and in the field.
3. Mining regulations must be followed, particularly wearing steel-capped safety boots and a hard hat whilst on a mine lease.
4. Suitable clothing must be worn both in the laboratory and the field as directed by those in charge.
5. Protective ear, eye and face equipment must be worn as required in designated laboratories and in the field.
6. Refrain from hammering rock in the vicinity of other persons not wearing safety glasses.
7. Avoid climbing on cliff faces or sheltering in caves.
8. No one is to roll or throw material down a cliff face.
9. Work in coastal areas may be undertaken only with the aid of an observer for King Waves etc.
10. A suitable hat must be worn in the field for sun protection, when appropriate or as directed.
11. Suitable sun screen is to be applied to the exposed parts of the body whilst in the field.
12. The consumption of alcohol in the field is discouraged and is limited to the discretion of the lecturer /supervisor in charge. (Disruptive behaviour due to the excessive consumption of alcohol may lead to the termination of a student’s enrolment).
13. Alcohol must not be consumed on buses.
14. The possession or consumption of prohibited substances is strictly forbidden.
15. UWA buildings and vehicles are no smoking areas.
16. Prior to a field excursion you must notify the supervisor of any medical condition or medication you are taking likely to affect your well-being.
17. No person shall exceed their known physical capabilities.
18. Private and public property is not to be tampered with or destroyed.

Termination of your enrolment will be recommended where:

- Your behaviour in the field or laboratory interferes with the rights of other people.
- You consume excess amounts of alcohol whilst attending student field excursions.
- You possess or use substances prohibited by law.
- You physically abuse a staff member.
- You verbally abuse a staff member.
- You continually violate this code of conduct.
- You breach University Statute 17.
